

Screened Category 6 RJ -45 Patch Panel Range

Front View

Description

FibreFab's Category 6 patch panel range exceeds the transmission line performance requirements of IEC and TIA for CLASS E/Category 6 systems. The panels are designed for mechanical and electrical reliability whilst delivering a consistent high level of systems performance and halving the cabinet space required in high density installations.

Each Category 6 patch panel range complies with the requirements of ISO/IEC 11801 (2nd Edition): 2010 and support all applications designed for CLASS E/Category 6 applications including ATM 1200, 1000BASE-T (Gigabit Ethernet and 1G FCBASE-T).
