

Optronic Cabinets Platinum Server Cabinets

19" Server Cabinets

The Optronic Platinum range of 19" server cabinets offer a high quality contemporary cabinet, at an extremely competitive price. Including thermal and cable management solutions, the Platinum range of cabinets are designed to meet the needs of the Data Centre Manager and Installer. The cabinet consists of an aluminium frame for strength and stability. Removable side panels allow all round access during installation. The cabinet is supplied with stylish front and rear mesh doors to increase the airflow from the front to the rear. Both doors are fitted with quick release pins for easy removal. The front and rear 19" panel mounts are fully adjustable and are screen printed with 'U' heights to assist the installer.
