

Cassette Cleaner

V.3.0

The Cleanreel cassette cleaner is the perfect solution for cleaning fibre connector endfaces and will clean all standard 2.5mm and 1.25mm connector types. A simple squeeze of the lever opens a window to reveal a fresh section of anti-static micro-fibre cloth. The connector end-face is then stroked along the cloth in one direction to give a perfect clean. Each cassette cleaner contains a replaceable reel of cloth with each reel giving up to 400 cleans before it needs replacing.

Features/Benefits

- > Cleans all standard 2.5mm and 1.25mm connectors (including SC, FC, ST, MU, LC)
- > Up to 400 cleanings per reel
- > Specially formulated anti-static micro-fibre cloth
