

Unscreened Category 6 RJ-45 Patch Panel Range

V.3.0

Unscreened Category 6 - 24 Port

Description

FibreFab's Category 6 patch panel range exceeds the transmission line performance requirements of IEC and TIA for CLASS E/Category 6 systems. The products are designed for mechanical and electrical reliability, using quality materials and processes, to create a panel solution which delivers a consistent high level of systems performance, whilst affording the installer a time saving advantage.

Each Category 6 patch panels comply with the requirements of ISO/IEC 11801 (2nd Edition): 2010 and support all applications designed for CLASS E/Category 6 applications including ATM 1200, 1000BASE-T (Gigabit Ethernet) and 1G FCBASE-T.
